## REMOVAL TRANSMISSION EQUIPMENT

The use of work equipment regulation health and safety requirements in accordance with periodic checks of removal transmission equipment competent institution is required to make one time in a year. It started work accreditation to perform an operation of this scope and application authority of Femko, with authorized staff and experts, removal transmission of periodic checks will be honored to served.

Please health of your employees and environment to make your periodic checks on the safety of late.

### PERIODIC INSPECTION SERVICES OF REMOVAL TRANSMISSION EQUIPMENTS;

**Platform** (Glumn Work Platform - Suspended Access Equipment  
Mobile Business Platform That Can Be Upgraded)

**Elevators(Lifts)** (Front Lifts - Electrical Lifts - Hydraulic Lifts - Freight And Service Lifts )

**Escalator, Walking Path, Cable Way, Teleski, Telese**

**Lifting Equipment** (Mechanical Hydraulic, Pneumatic Lifts

Forklift - Manlift - Handlift - Palletjack - Carlift)

**Cranes** (Tower Cranes - Portal Cranes - Mobile Cranes - Building Cranes - Overhead Cranes

Overhead Cranes - Monorail Cranes - Purlin Cranes - Jib Cranes - Truck Mounted Cranes)

**Fasteners** (Slingshot - Eye - Mapa - Bolt)

**Construction Machinery** (Motopomp - Compressor - Generator)
